SUMMARY

Passionate frontend engineer with over 4 years of hands-on experience in crafting captivating user experiences. Proficient in HTML, CSS, and JavaScript, with a strong focus on React.js and Next.js. Skilled in translating design concepts into polished, functional interfaces while adhering to best practices and industry standards. Proven track record of collaborating with cross-functional teams to deliver projects on time and exceed client expectations. Eager to leverage my expertise and creativity to drive innovation and elevate user engagement in a dynamic work environment.

EDUCATION

Bachelors of Engineering in Software Engineering

Nepal College of Information Technology
2015 - 2019   Balkumari, Nepal

EXPERIENCE

Software Engineer

readytowork-corp   12/2021 - Present
Achievements/Tasks

- Led a project from inception to completion, overseeing a team of 5 individuals to ensure successful delivery within specified timelines
- Turned Figma designs into flawless web pages, ensuring every pixel matched the original design. Paid close attention to detail and followed design specs meticulously
- Implemented responsive design techniques to ensure optimal display and functionality across various screen sizes and devices, enhancing user experience and accessibility.
- Successfully integrated APIs into web applications to enable seamless data exchange and functionality, enhancing the overall performance and usability of the platforms.
- Provided mentorship and guidance to junior team members, fostering their professional growth and development within the organization.
- Implemented code review processes to ensure adherence to best practices, coding standards, and maintainability, resulting in robust and scalable codebases.

React JS developer

WebExpertsNepal   01/2021 - 12/2021
Achievements/Tasks

- Contributed to the development of frontend components using HTML, CSS, and JavaScript, ensuring code readability and maintainability.
- Assisted in building user interfaces and interactive features using React.js, gaining hands-on experience with state management, component lifecycle, and React hooks.
- Worked collaboratively with senior developers and designers to understand project requirements, provide feedback, and deliver features according to specifications and timelines.
- Implemented robust state management solutions using Redux, orchestrating data flow and ensuring consistent application state across components.
